Yosemite Lakes Owners' Association
30250 Yosemite Springs Pkwy.
Coarsegold, CA 93614

Dear Sir/Madam,

I am interested in being elected to the Board of Directors. I have lived in Yosemite Lakes Park for nine years and love living here. I really care about this community and believe I can make a positive impact. Being a business man and a college graduate I have the experience and training to help solve some of the many challenges facing our community. I am currently the Chairman of the Long Range Planning Committee. While on that committee I realized my desire to become more involved in our community. My main interest is to make the park assets profitable. I have many ideas on how to turn the financial losses into financial gains, thus, making the park more desirable to future residents. I feel I can contribute a considerable amount of time to achieve these financial goals.

My qualifications are as follows:

- 1) Served as President of Garden Park Home Owners' Association, San Jose, Ca.
- 2) Have a Degrees in Chemistry, Hazardous Waste Management and Management.
- 3) I am a California General Contractor.
- 4) President of Sierra Custom Builders, Inc.
- 5) I have also established a relationship with Madera County Board of Supervisors on behalf of my clients.

If I have the privilege of being elected to the Home Owners' Board I will work for the best interest of the home owners, protecting their assets.

Sincerely,

Philip P. Farren
