

I would like to ask my fellow members in YLOA to consider me as a viable candidate for the position as Director on the YLOA Board.

Being a Director will enable me to work toward improvements and positive growth of YLP. Yosemite Lakes Park is a wonderful place to live and I wish to assist in the enhancement of its future. This is a difficult economic time and as a board we need to work hard to find ways to conserve money and yet still have YLP a family friendly place to live.

As a retired educator I have plenty of time to spend on the duties of a Director. I have energy, enthusiasm and a strong work ethic. To do a good job I am more than willing to put in whatever time is necessary.

I will contribute the people skills I have developed through more than 25 years of dealing with students, parents and co-workers. My organizational skills are strong as well as my ability to communicate in a positive manner. Several years ago I was a board member at Heritage Ranch, Nacimiento Lake, California, which gives me experience with homeowner boards. I will bring a reasonable voice, a good listening ear and the capability of compromise. I am a team player and will work for the betterment of all things. I have positive ideas for revenue enhancement, family activities, and overall improvements to bring us together as a community.

Some of the specific goals I intend to accomplish include pursuing the update of our Recreational Center. I have already been working on this project and will continue to do so. Our youth need activities within the park that are healthy and positive. I introduced the idea of using Recycle Saturdays as an extra fund raiser to groups other than the Little League and plan to have that continue. The improvement and introduction of new amenities to the Rec Center are very real possibilities with the use of grants to fund them. Improvements also bring the feasibility of additional revenue to YLP. I have been working on the Communication Committee with current Board members, Elaine Loard and Al Clark and see an improvement in this area already. Communication is an important part of our community. The establishment of Reverse 911 is a significant part of this communication. We must have an Emergency Evacuation Plan in place with the Reverse 911 active to assist in this process.

I firmly believe these things are possible.

Your vote is VERY IMPORTANT TO OUR PARK. I would appreciate your vote in July.

Sandy Johnson, lot 1185
